

Start VSPlayer on your PC

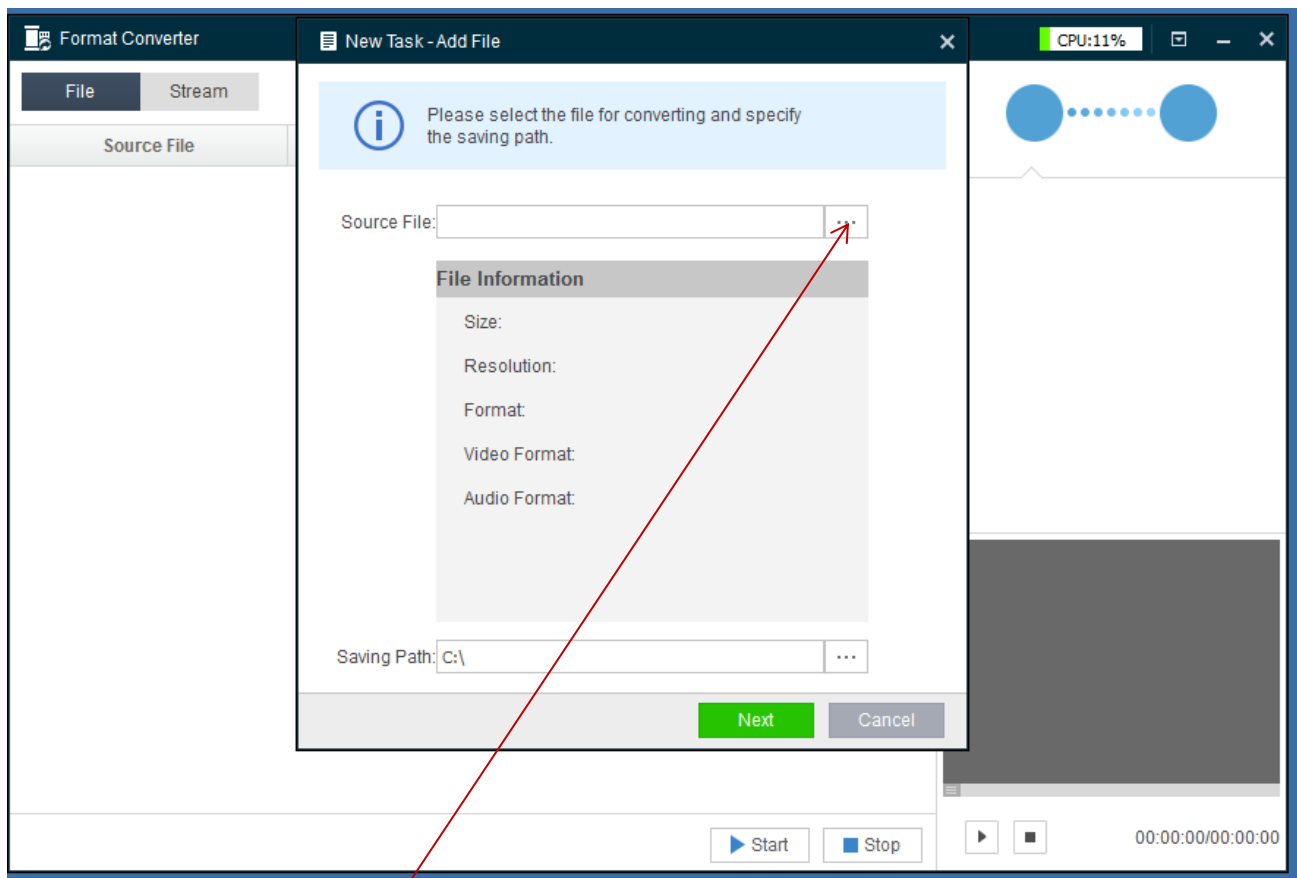

Click on Tool Box

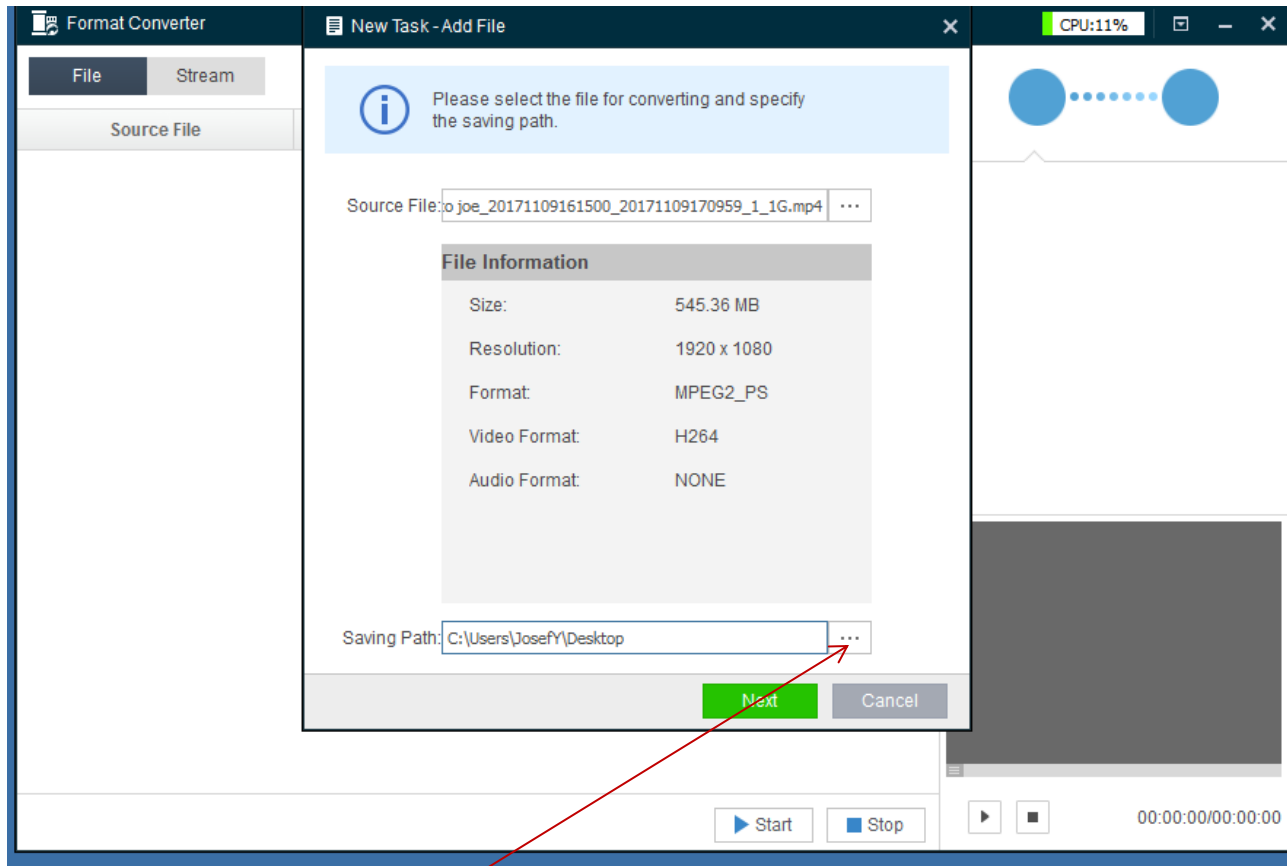

Select Convert icon

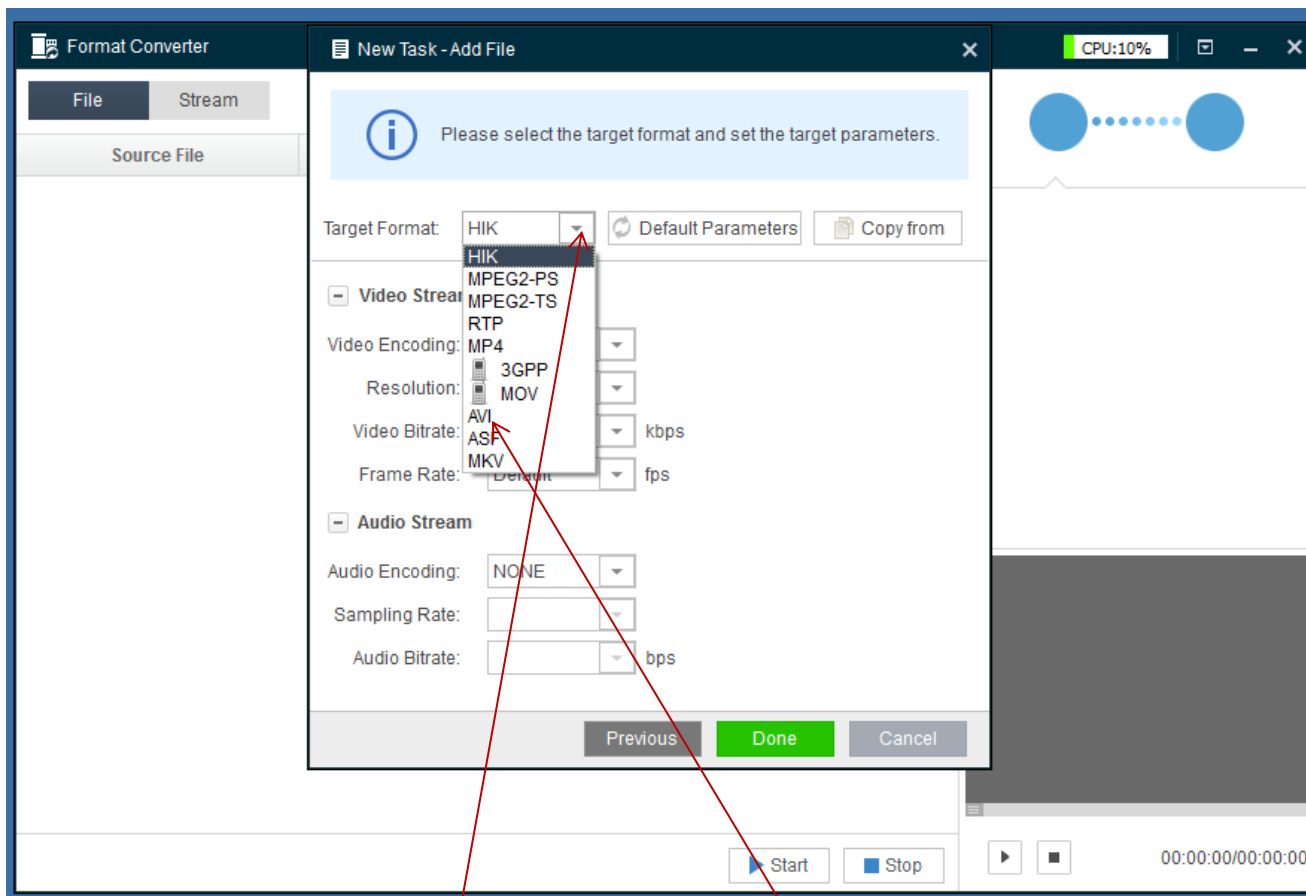

Click on + to select a single or a batch of saved clips.

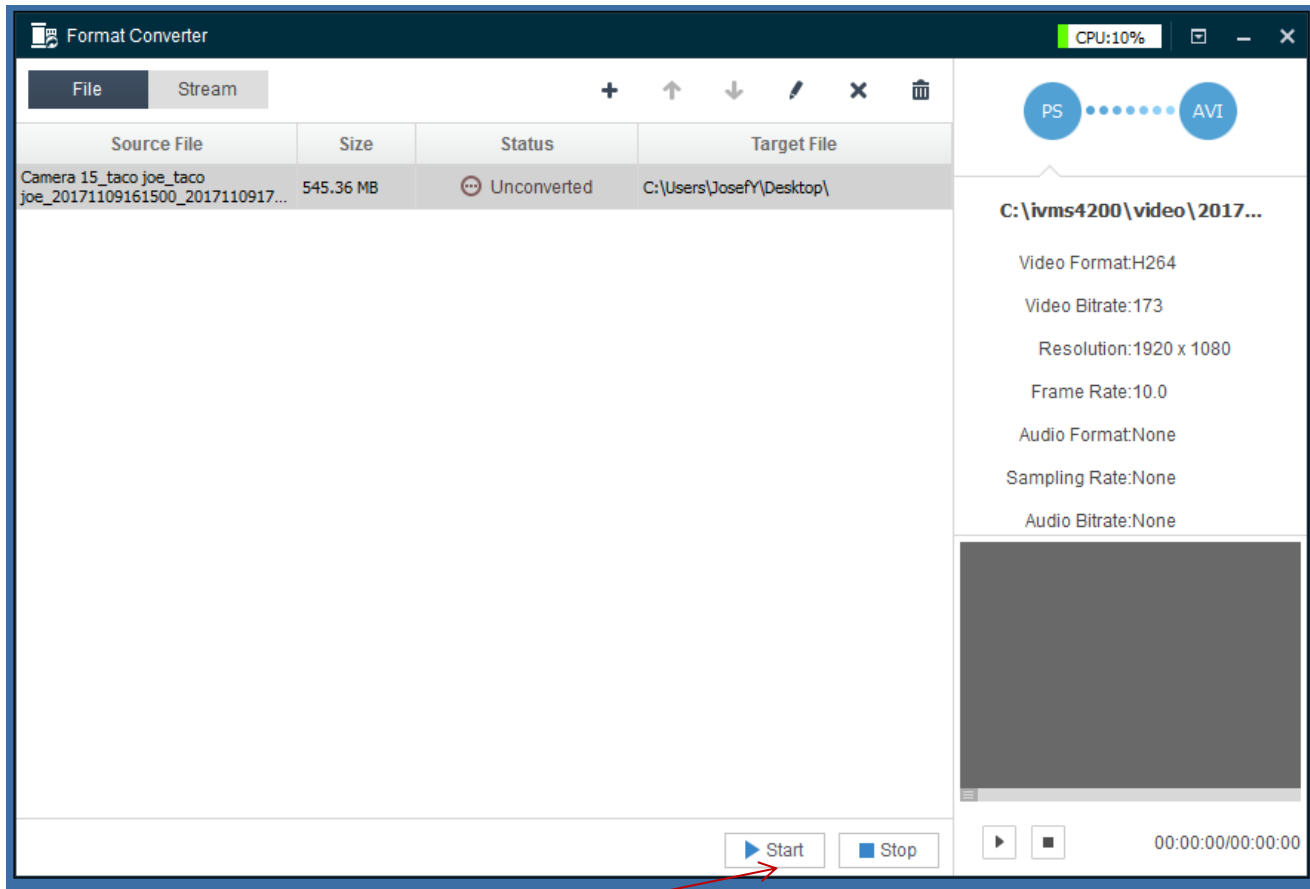

Browse to c:\ivms4200 folder and select MP4 files.

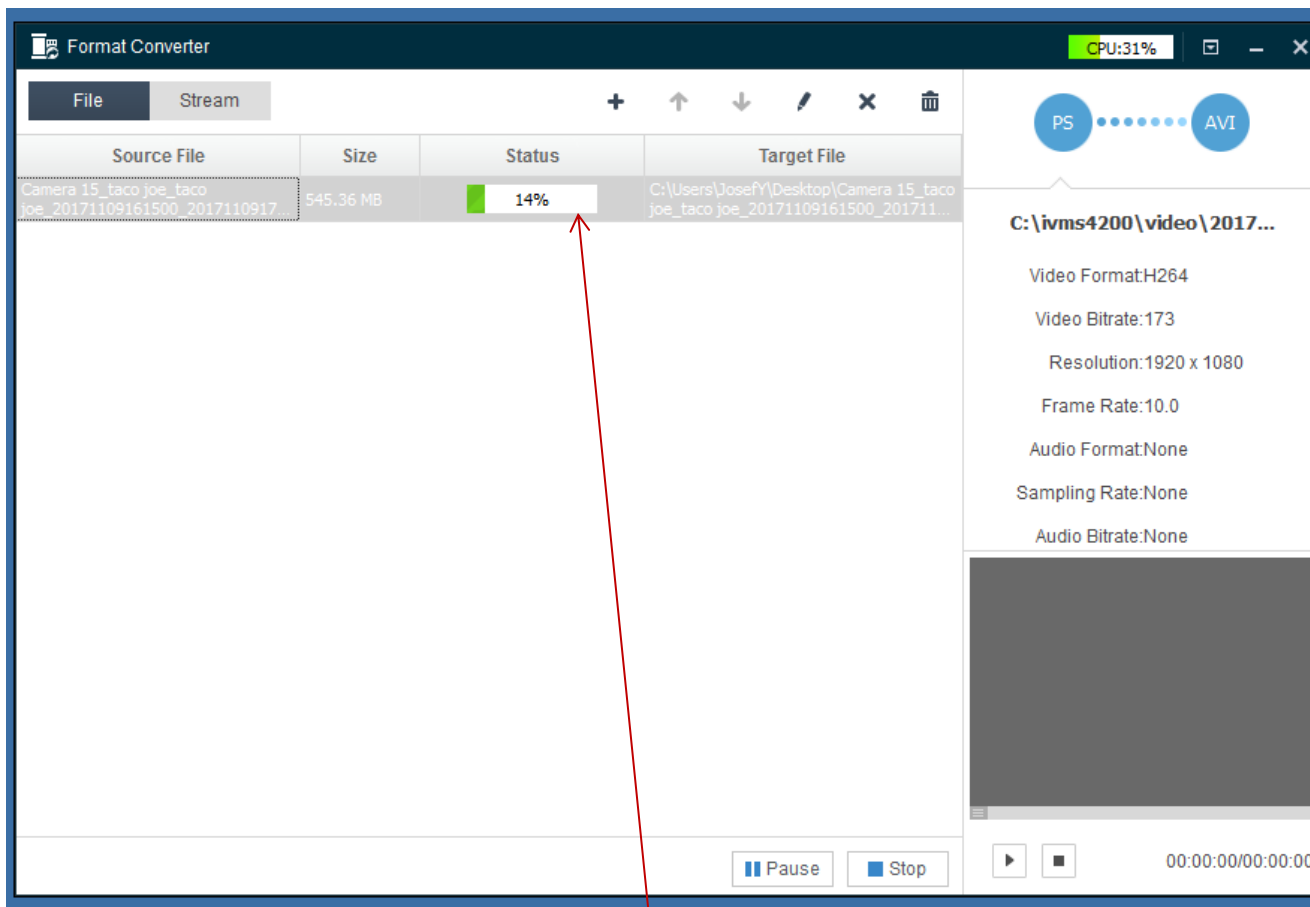

Browse to the folder you want to save the converted video clip(s) in.

Click on "Target Format" and select AVI option and click done.

Click on Start to start the conversion of the video clip.

When the bar reaches 100% the conversion is done.
